Writing about Math: Solving a Linear Equation

Consider the equation $5x + 7 = 2x + 28$. Explain the steps you would take, in order, to solve the equation for x. Be as specific as possible and write in complete sentences.

$$5x + 7 = 2x + 28$$

The TASC Transition curriculum is a collaborative project of the New York State Education Department and the Queens Borough Public Library, supported by funding from the New York State Department of Labor.
