What did you eat yesterday?

Ask your classmate:

1. Did you eat broccoli yesterday?
2. Did you eat chicken yesterday?
3. Did you drink milk yesterday?
4. Did you eat beans yesterday?
5. Did you eat eggs yesterday?
6. Did you drink coffee yesterday?
7. Did you eat pizza yesterday?
8. Did you eat a banana yesterday?
9. Did you eat yogurt yesterday?
10. Did you eat rice yesterday?
11. Did you eat bread yesterday?
12. Did you eat salad yesterday?
13. Did you eat fish yesterday?
14. Did you eat an apple yesterday?
What do you know about Nutrition????

Read the questions. Write “True” or “Not true.”

1. Women should have 800 calories every day.  
2. Fat is ALWAYS bad. Try not to eat it.  
3. Nuts can be a healthy food.  
4. Protein is a good energy food.  
5. Spinach has a lot of protein.  
6. Milk has a lot of calcium.  
7. Beans have a lot of protein.  
8. Some fruits have a lot of vitamin C.  
9. White rice and brown rice are the same for your health. Only the color is different.  
10. We don’t need to eat fiber.  
11. Apples have a lot of calcium.  
12. Baked potatoes are better than French fries.  
13. People with diabetes should not eat sugar.  
14. Milk has a lot of vitamin C.
Healthy Eating

Work with a partner. Write foods for each group.

<table>

What do our bodies need?

Our bodies need many things to be healthy.

We need **calories**. Calories give us energy. All food has calories. Only water, coffee and tea have no calories.

If we eat too many calories we will get fat. If we don’t eat many calories, we will lose weight.

Our bodies use calories all the time. Even when we are sleeping, we are using calories. Exercise or physical activity uses more calories than sleeping.

---

Jo is a postal worker. She walks all day.

May works in an office. She sits all day.

---

**Who needs more calories (Jo or May)? Why?**
Look at the chart. How many calories do you need?*

<table>
<thead>
<tr>
<th>Age</th>
<th>Not Active</th>
<th>Moderately Active</th>
<th>Active</th>
</tr>
</thead>
<tbody>

*This is a guide. Talk to your doctor or health care worker about what is right for you.
Carbohydrates give our bodies energy. We need some carbohydrates every day.

Meat has no carbohydrates. What foods have a lot of carbohydrates?

1. **Potatoes**
2. 
3. 
4. 
5. 
6. 

Some carbohydrates are not healthy. We shouldn’t eat too many “refined” carbohydrates. For example, foods made from white flour are not very healthy. What foods have white flour?

1. **White bread**
2. 
3. 
4. 
5. 
6. 

Sugar is also a carbohydrate. We shouldn’t eat too much sugar. What foods have a lot of sugar?

1. **Cake**
2. 
3. 
4. 
5. 
6. 

Healthy carbohydrates are called “complex carbohydrates.” What are some healthy carbohydrates?

1. **Brown rice**
2. 
3. 
4. 
5. 
6.
Our bodies also need **protein** every day. Protein helps our bodies grow. Babies and children need protein to grow tall. Everybody needs protein to build and repair body tissues and organs. For example, your brain needs protein. Your hair needs protein, too.

Vegetables have a little protein. What foods have a lot of protein?

1. *Fish*  
2.  
3.  
4.  
5.  
6.  

Our bodies need some **fat** every day. Fats help us to use some vitamins. But we shouldn’t eat too much fat.

Fruit doesn’t have any fat. What foods have a lot of fat?

1. *Ice cream*  
2.  
3.  
4.  
5.  
6.  

Some fats are healthier for our body. What are some healthy fats?

1. *Olive oil*  
2.  
3.  
4.  
5.  
6.
