# EASTERN EUROPEAN CHRISTMAS CONCERT

Please join us in celebration of upcoming Christmas with traditional folkloric music and songs sung in the different languages of Eastern Europe. This folk music was born in the mountains and countryside of various regions, and was passed on orally from one generation to the next. These songs speak simply and powerfully about love and longing, disappointment and joy, often weaving together elaborate metaphors. The characteristic musical instruments include the accordion, violin, and flute.

Learn about our Christmas traditions filled with kindness and warmth.
