A. Action Item(s)

B. Report Items
   A. Purchases Over $5K Report November 2018 (ID # 1938)
   B. Purchases Over $5K Report December 2018 (ID # 1939)
   C. Purchases Over $5K Report January 2019 (ID # 1940)

III. ADJOURNMENT
   1. Motion to Adjourn (ID # 1932)
Queens Library Board/Committee Item

BOARD/COMMITTEE: Buildings and Grounds Committee

DATE OF MEETING: February 21, 2019

ITEM ID #: 1937

AGENDA: Contract Authorization – System-Wide General Construction Services Requirements Contracts

Background:

This is an action item seeking approval from the Queens Borough Public Library’s Board of Trustees for the Library to enter into general construction requirements contracts with Mac Contractor, Inc. and Mamais Construction, Corp. The Board’s approval is required pursuant to the Library’s Purchasing Policy, which provides, in pertinent part, that contracts for construction projects, building services, and maintenance and repair of buildings and grounds in excess of $35,000 may be awarded only after soliciting sealed competitive bids and upon the authorization of the Library’s Board of Trustees.

The Library does not presently have any requirements contracts for general construction services. The Library has been awarding general construction work through separate project-specific solicitations, government contracts or as emergency procurements.

Current Status:

On November 15, 2018, the Library issued an Invitation for Bids, Bid Number 1118-1, for system-wide general construction requirements services to be awarded to multiple firms. The bid was advertised in the New York City Record, BidNet and New York State Contract Reporter, posted on the Library’s website, and notification of the solicitation was sent to over two thousand (2,000) firms using the NYS and NYC MWBE directories, the NYS Service Disabled Veteran Owned Business Directory and bidder lists compiled by the Library.

The bid stated that the Library was seeking to engage the expertise of qualified vendors to provide general construction services throughout the Library system for projects ranging from a single hour up to an estimated amount of $150,000. The bid also stated that the Library intends to award contracts to multiple vendors with the primary contract to the lowest responsible bidder
(“Primary Successful Bidder”), the second contract to the next lowest responsible bidder (“Secondary Successful Bidder”) and so forth. The Library retained the sole discretion to determine the number of firms being awarded contracts. For this solicitation the Library has determined that awarding two contracts will provide sufficient coverage and redundancy.

Bidders were required to provide a maximum hourly rate for general contracting services, which would cover the full range of general contracting services, inclusive of all overhead, profit and payment of prevailing wages and be fixed for the first year of the contract. The bid provided that a bidder’s maximum hourly rate would increase by two percent (2%) each year of the contract and that material, equipment and subcontracting of other trade work shall not exceed a twenty percent (20%) mark-up.

For the award of specific work, the bid stipulated that the Library reserves the right to award any work to the Primary Successful Bidder at or below its maximum hourly rate. In the event the Primary Successful Bidder is not available, has a lapse of insurance or submits a Statement of Work (“SOW”) which is rejected by the Library, the Library may award the relevant work to the Secondary Successful Bidder. The Library has also retained the sole discretion to make the determination that the Primary Successful Bidder has demonstrated poor performance, does not have the capability to perform the specified work at issue and/or within the required time frame, or has raised health and safety concerns in performing prior work. Under those conditions, the Library may award the work to the Secondary Successful Bidder. Furthermore, the bid provides the Library with the discretion to award work for a specific project or duration of time based on mini-bids among the two Successful Bidders.

The following eleven firms submitted timely bids:

<table>
<thead>
<tr>

</tr>
<tr>
<td>8  J.I.P Construction Corp.</td>
<td>NYC &amp; NYC MBE</td>
<td>$200.00</td>
</tr>
</tbody>
</table>
Mac Contractor, Inc. (“Mac Contractor”) submitted the lowest responsive bid. The second lowest bid from Red Eagle Contracting, Inc. was deemed non-responsive because the firm did not provide a maximum hourly rate as required; instead, it provided ambiguous pricing information. Mamais Construction, Corp. (“Mamais Construction”) submitted the next lowest bid. The Library thoroughly reviewed each vendor’s experience, financial stability, references, background, completed vendor responsibility questionnaire and the PASSPort database in assessing the vendor’s responsibility. This review did not identify any negative findings or raise any integrity issues that would adversely affect an award to the two aforementioned responsive bidders.

A reference from the City’s School Construction Authority indicated that Mac Contractor performed exceptional work on a library project for P.S. 194, which it completed earlier than scheduled. A reference from Diaz Electrical stated that Mac Contractor worked as its subcontractor on projects at P.S. 559 in the Bronx and P.S. 20 in Queens and that its work exceeded expectations. Additionally, Mac Contractor has provided exceptional general contracting work for Queens Library at Glen Oaks, Whitestone and the Central Operations Center.

A reference from Columbia University stated that Mamais Construction has been retained by the University for the past twenty-five years and has performed extensive general contracting work, including the complete renovation of dorms, classrooms, public bathrooms, dining halls and roofing and that it has performed exceptionally well. A reference from CVS Pharmacy stated that Mamais Construction has held a contract to perform general construction work throughout its New York City locations and that Mamais Construction has met all expectations. A reference from Northwell Health indicated that Mamais Construction has performed over 2,000 interior renovations at its facilities and that Mamais Construction has performed exceptionally well. Mamais Construction stated in its bid that it was recently awarded a general construction requirements contract from the New York Public Library. A reference from New York Public Library confirmed this information and stated that Mamais Construction has recently been awarded work and is in the process of mobilization on two projects. Mamais Construction has also satisfactorily performed over $600,000 in work since 2013 for the City University of New York and for the New York City Department of Housing Preservation and Development.

**Recommended Motion for Consideration by the Buildings and Grounds Committee:**

I move that the Buildings and Ground Committee recommend to the Board of Trustees that the President and CEO be authorized to execute contracts with Mac Contractor, Inc. and Mamais Construction, Corp. for system-wide general construction requirements services for a three-year
term with two one-year options to renew at the Library’s sole discretion at the rates proposed herein.
