BOARD/COMMITTEE:	Board of Trustees
DATE OF MEETING:	September 8, 2022
ITEM ID #:	2744
AGENDA:	Selection of Nominating Committee for Election of Officers 2023

Background:

Pursuant to the By-Laws, a Nominating Committee must be elected no later than November of each year and must prepare and submit to the Board of Trustees at least ten (10) days prior to the Board's regular meeting in December (presently scheduled for December 15, 2022) the slate of candidates for the officers of the Library for the forthcoming year. The By-Laws call for the Chair of the Board to appoint two of the five members to the Nominating Committee and for the Board to elect the other three members.

The date of the Nominating Committee meeting is scheduled for November 17, 2022.

Recommended Motion for Consideration by the Board of Trustees:

I move to accept the Chair of the Board's appointment and the Board's election of the following trustees to the Nominating Committee:

AGENDA:	Print Media Delivery Services - Contract Authorization

Background:

This is an action item seeking approval from the Queens Borough Public Library's Board of Trustees for the Library to enter into a contract with A.M. Newspaper Delivery Services Inc., D/B/A Mitchell's ("Mitchell's") for print media delivery services. The Board's approval is required pursuant to the Library's Purchasing Policy, which provides, in pertinent part, that contracts for such services with an annual cost in excess of \$50,000 must be approved by the Library President and CEO and the Board of Trustees.

Mitchell's is the Library's incumbent provider of print media delivery services and received Board approval to provide services in 2017. The contract is set to expire in October.

The Library provides information to the public in many formats, including daily and weekly newspapers. Prior to the award to Mitchell's, the Library provided newspapers to community libraries either via standard newspaper delivery service or by sending Library staff to local stores to purchase newspapers. Both of these options had significant disadvantages. Newspapers delivered via standard delivery were left outside the libraries but were not secured, leading to sporadic loss or theft. In addition, standard newspaper delivery was not available at some library locations. In other instances, the Library used local post office to ensure safe delivery of newspapers; however, the newspapers were delivered a day after publication. Furthermore, when staff members were sent out to purchase newspapers, they often had to visit several different stores, and in some cases the newspapers are not available. This old process took staff away from their primary duties and offered inconsistent quality of services.

For these reasons, the Library continues to require a delivery service that has access to a wide range of print media and can deliver newspapers to all community libraries in a secure, timely, and consistent manner, either through the Library's self-check-in and automated materials handling system ("AMH") or, where AMH is not available, at a predesignated secure location.

Current Status:

The Library issued an RFP # 0222-2 on January 11, 2022 for print media delivery service, whereby the Library would pay the cover price for each newspaper, plus a per-delivery fee that would be fixed for the first two years and increase in years three, four, and five by the regional

Consumer Price Index, but not to exceed five percent. The RFP was advertised in the New York City Record, Bid Net, the New York State Contract Reporter, and posted on the Library's website. Notification of the RFP was sent to over 50 firms, including New York City and New York State MWBE firms and NYS SDVOB firms.

Mitchell's, submitted a timely and responsive proposal. Mitchell's is a Queens-based firm that, unlike many other newspaper delivery firms that limit their deliveries to newsstands and other retailers, delivers newspapers to hotels and offices throughout New York City. A selection committee comprised of Library staff evaluated the proposal, utilizing the cost and technical evaluation criteria set forth in the RFP, and interviewed the firm. The results were as follows:

	AM Newspaper Delivery Service, Inc. D/B/A Mitchell's
Technical and Cost Scores:	91.00
Per location delivery fee:	\$4.75

Mitchell's proposal was deemed by the selection committee to be a viable proposal. In addition, the proposed per location delivery fee of \$4.75 is the current the fee for services, and as such the selection committee determined the fee to be fair and reasonable. Based on an estimated number of 16,848 deliveries per year at \$4.75 per delivery, the projected annual costs are \$80,028 for the delivery services plus the cost for the print media.

Mitchell's is located in Long Island City. It was established in 1946 as a small candy store on First Avenue and 50th Street and grew into the largest independently-owned newspaper home delivery service in the United States.

Mitchell's provides newspaper delivery service to the Queens County District Attorney's Office, NYC Department of Law, and the NYC Public Advocate. A review of Checkbook NYC website indicates that Mitchell's has been providing services to various City agencies since 2010 including NYPD, the Law Department, and Department of Social Services. In addition, Mitchell's has performed well for the Library.

Recommended Motion for Consideration by the Board of Trustees:

I move that the Board of Trustees authorize the President and CEO to execute a contract with A.M. Newspaper Delivery Services INC., D/B/A Mitchell's for a term of three years with an option to extend for two one-year periods at the proposed per delivery fee plus the cover price for the print media, as described above.

BOARD/COMMITTEE:	Board of Trustees
DATE OF MEETING:	September 8, 2022
ITEM ID #:	2737
AGENDA:	Urban Archive, Inc. to Provide Services for Queens Monuments Project Contract Authorization

Background

This is an action item seeking approval from the Queens Public Library's Board of Trustees to enter into a contract for \$75,000 with Urban Archive, Inc. ("Urban Archive"), to design and develop a comprehensive online platform for the Queens Memory Monuments Project, integrated into Urban Archive's existing interactive NYC map. The Board's approval is required pursuant to the Library's Procurement Policy, which states, in pertinent part, that contracts for professional services with an annual cost in excess of \$50,000 must be approved by the Library President and CEO and the Board of Trustees.¹

I. The Mellon Foundation Monuments Project

The Library has received a grant in the amount of \$150,000 from the Mellon Foundation ("Mellon"), as part of Mellon's nationwide Monuments Project. The Monuments Project is a \$250 million commitment by Mellon to transform the nation's commemorative landscape by supporting public projects that more completely and accurately represent the multiplicity and complexity of American stories. Launched in 2020, the Monuments Project builds on Mellon's efforts to express, elevate, and preserve the stories of those who have often been denied historical recognition, and explores how to foster a more complete telling of who we are as a nation. Mellon awards grants under the Monuments Project to publicly oriented initiatives that will be accessible to everyone and promote stories that are not already represented in commemorative spaces, as well as efforts to contextualize or recontextualize existing

¹ The Library's current Procurement Policy, adopted in September 2021, states that the procurement of professional services with an annual cost of more than \$50,000 shall require the issuance of a Request for Proposal ("RFP"); however, a department head may request that the Library President and CEO waive the requirement of an RFP, thus allowing for the selection of a vendor for professional services or leases without competition, or permitting less formal competition than that of an RFP. In conformity with the Policy, the Chief Librarian requested, and received, a waiver of the RFP requirement from the Library's President and CEO. The basis of the waiver was the unique nature of Urban Archive's services, which cannot be provided by any other vendor, and the fact that the successful grant application to the Mellon Foundation contemplated the Library's partnership with Urban Archive specifically.

commemorative sites and to uplift knowledge-bearers who can tell stories that have not yet been told.

II. The Library's Mellon Grant Application Made in Collaboration with Urban Archive

The Library applied for the Mellon grant in collaboration with Urban Archive, proposing the implementation of the "Queens Memory Monuments Project," an initiative to promote equity and inclusion in the documentation and discussion of monuments, memorials, and named spaces across the diverse borough of Queens. The grant proposal entailed an allocation of \$75,000 to Urban Archive for creation of an all-in-one online platform that will make it easy for Queens residents to record, share, and comment on the role that monuments play in their local communities. The Library in turn would use the remaining \$75,000 to hire separate consultants to conduct an inventory of monuments, memorials, and named streets, parks and other public places in Queens; seed the platform with existing Library archival content about the named items in the inventory; and gather more artifacts about the named inventory items through public programming, partnerships with scholars and community leaders, and a general call to the public to contribute content to the platform.

III.Urban Archive's Unique Position

Urban Archive is uniquely positioned to provide the product at the center of the Queens Memory Monuments Project. There are no other technology products that occupy this niche in terms of function, design and content. Urban Archive has been developing the design of its site for over six years and working out bugs with the help of a community of site users, so the Library is benefiting from a platform that is more developed and advanced than anything the Library or another vendor could build as a one-off website.

Thus, while all new archival assets and knowledge gathered during this initiative would get a home in the Library's digital archives, being able to share these materials on Urban Archive's interactive map of New York City provides a unique opportunity for these materials to be in conversation with collections from other cultural organizations across the city. In this way, the Library can provide permanent digital preservation and access while leveraging the Urban Archive platform to showcase these items in an appealing and accessible way. This widespread access is a fundamental of the Mellon Foundation's Monuments Project.

Current Status

The Urban Archive Queens Memory Monuments Project team is composed of a Project Manager, Designer, and Developer. The scope of services for each team member is as follows:

The Project Manager will:

- Set up the Queens Monuments project page with the aid of Library staff and the Designer;
- Define workflows for exporting public submissions from the project page and onto an external, preservation platform already utilized by the Library;

- collaborate with Urban Archive's development team to define data standardization procedures for the Library's Data Specialists and identify NYC open datasets that are eligible for integration;
- set up project page analytics to ensure the collection of proper project reporting;
- load the preliminary project data onto the Urban Archive map;
- feed submissions and project content into Urban Archive's marketing channels (including social media, newsletters, and Facebook ads);
- support Library staff in generating user stories and curating project content to be utilized in promotional materials;
- deliver project analytics, reporting on metrics such as total users, views, and impressions on the project page; and
- establish logistics needed for public campaign to vote for nominated place with Library staff.

The Designer will:

- set up the Queens Monuments project page with the aid of Library staff and the Project Manager;
- generate graphic design templates, utilizing Library branding, for use in social media and other marketing channels;
- use demographic comparisons (developed by the project's Data specialist) between the individuals represented in named places and the people who live in Queens today to produce visualizations and other outputs to communicate findings with the team and with the public.

The Developer will:

• integrate open data and the datasets generated by the Library's Data Specialist. This includes surfacing and visualizing relevant data on the project page including ways to display geospatial data, which can include, NY City Council districts, QPL locations, and community board districts as well as a set of icons for different types of named places (streets, schools, statues, etc)

Urban Archive has provided stellar services for the Library for its COVID-19 and 125th Anniversary Projects. Furthermore, Urban Archive has worked with over 50 New York City cultural institutions. Organizations that have collaborated with Urban Archive and contributed data for the interactive platform include: BPL, NYPL, Brooklyn Historical Society, Columbia University Libraries, Historic Districts Council, Metropolitan Museum of Art, Municipal Art Society of New York, Museum of Chinese in America, Museum of the City of New York, New York Historical Society, New York Landmarks Conservancy, NYC Department of Housing Preservation and Development, NYC Department of Records, NYC Department of Sanitation, NYC LGBT Historic Sites Project, and NYC Public Design Commission.

Recommended Motion for Consideration by the Board of Trustees:

I move that the Board of Trustees authorize the President and CEO to enter into a contract with Urban Archive, Inc. to design and develop a comprehensive online platform for the Queens Memory Monuments Project, for a term not to exceed a year, and a cost not to exceed \$75,000.

BOARD/COMMITTEE:	Board of Trustees
DATE OF MEETING:	September 8, 2022
ITEM ID #:	2753
AGENDA:	Childcare Specialist Training Program - Contract Authorization

Background:

This is an action item seeking approval from the Queens Borough Public Library's Board of Trustees to enter into a contract with International Development Institute, Inc. ("IDI") to provide a childcare specialist training program. The Board's approval is required pursuant to the Library's Procurement Policy, which states, in pertinent part, that contracts for professional services with an annual cost in excess of \$50,000 must be approved by the Library President and CEO and the Board of Trustees.

The New York State Education Department ("NYSED") received significant funding from the federal government to implement programs that integrate services for immigrants—including English literacy classes, civics education, and workforce development activities—through the federal Workforce Innovation and Opportunity Act ("WIOA").

Under WIOA's Integrated English Literacy and Civics Education ("IELCE") initiative, the Library received three grant awards totaling \$6 million from NYSED, to facilitate programs that connect the residents of Queens to careers in healthcare, childcare, and technology. The program serves to connect immigrants with employment-based training and English classes to improve their educational and employment outcomes, become self-sufficient, and support the educational development of their children. The grants will fund this childcare specialist training program. Since 2018, the Library has been a leading force in IELCE programming in New York City, receiving an initial \$4 million in funding and training for more than 150 Home Health Aides and 200 Computer Support Specialists and Office Support Staff; most recently, the Library graduated its first cohort of Childcare Specialists.

IDI has successfully provided the Library with childcare specialist training program services, graduating nine students this summer. The success of this training set a clear trajectory for students to meet the education requirement for the nationally recognized Child Development Associate ("CDA") certification as specified in the Library's WIOA contract.

IDI is a private career school founded in 1993. The school is licensed and registered by NYSED, the University of the State of New York, and the Bureau of Proprietary School Supervision. The school was founded to provide students with diverse career training programs at both the

technical and vocational levels. These programs have been designed to help students obtain knowledge that will ensure a sustainable future. IDI is committed to providing a learning environment that affords people of all ethnic and cultural backgrounds opportunities to achieve their educational goals.

IDI trainings are approved and recognized by the following government agencies:

- NYSED
- New York State Department of Criminal Justice Services
- New York State Department of State, Division of Licensing Services
- New York State Department of Social Services
- New York City Department of Environmental Protection
- New York City Fire Department
- New York City Workforce Investment Board

Current Status:

Funding received by the Library from IELCE will provide sector-contextualized English as a second language instruction, early childhood education, and a pathway to obtaining a Child Development Associate Credential. Training and instruction will run concurrently as participants will be enrolled in contextualized English Language Learning classes and 120 hours of formal early childhood education. The program will be delivered in two groups. Classes will meet two days/week for contextualized English Language classes (provided by the Library) and two days/week for childhood education training (provided by IDI).

The proposal from IDI is to provide a child care specialist training program for twenty-five (25) participants. The cost for the proposed services from IDI is \$62,500. IDI will provide instruction on-site at designated Library locations. This course will prepare participants to work with children of all ages in childcare centers, nursery schools, preschools, public schools, private households, family childcare homes, and before- and after-school programs. Federal law requires that providers of training services for WIOA participants be state-certified as Eligible Training Providers; IDI is so certified.¹

IDI's training meets the necessary education requirement for the nationally recognized Child Development Associate, covering the following topics:

- Principles of child growth and development
- Planning a safe, healthy learning environment
- Promoting children's physical and intellectual development
- Observing & recording children's behavior
- Supporting children's social and emotional development

¹ The Library's current Procurement Policy, adopted in September 2021, states that the procurement of professional services with an annual cost of more than \$50,000 shall require the issuance of an Request for Proposal ("RFP"); however, a department head may request that the Library President and CEO waive the requirement of an RFP, thus allowing for the selection of a vendor for professional services or leases without competition, or permitting less formal competition than that of an RFP. In conformity with the new Procurement Policy, the Vice President of Programs and Services requested, and received, a waiver of the RFP requirement from the Library's President and CEO. The basis of the waiver was the experience of the firm providing services, its prior successful work with NYS and NYC agencies, including the Library, and the limited number of appropriately certified credential-granting schools in the Library's service areas.

- Managing an effective program operation
- Maintaining a commitment to professionalism
- Preparing for final assessment as a Child Development Associate
- How to develop a child care plans
- Operating a Child Care Program
- How to start your own Day Care Center
- CPR for child care workers

IDI has previously demonstrated to the Library a commitment to provide students with highquality training and education opportunities.

Recommended Motion for Consideration by the Board of Trustees:

I move that the Board of Trustees authorize the President and CEO to execute a contract with International Development Institute, Inc. to provide a childcare specialist training program for a term to conclude on June 30, 2023 at a cost of \$62,500.
