My Plate Planner

A Healthy Meal Tastes Great

The Plate Method is a simple way to plan meals for you and your family. You don’t have to count anything or read long lists of foods. All you need is a 9-inch plate.
Let's Plan Your Meal

Lunch/Dinner

- Fill half your plate with vegetables. Some vegetables are higher in starch (corn, peas, yams) and belong on this part of the plate.
- Bake, broil, boil or steam your protein instead of frying.
- Whole grain has more fiber and more nutrients.
- Low-fat proteins are better for your heart and waistline.

Note: Only use 1/2 of your plate — 1/4 protein and 1/4 starch.
