Read about Lisa's poll and answer the questions.

Lisa's poll questions:

***Do you drink coffee? Do you think coffee drinking is healthy or unhealthy?
Why or Why not?***

Yesterday, I asked my class about their coffee –drinking habits. I was surprised that so many of my classmates drink coffee. 89% said they drink coffee every day. Most of them think coffee drinking is neither healthy nor unhealthy, but a few of them think drinking coffee is unhealthy because it can damage cause heartburn. One of my classmates said, "I couldn't live without coffee." Another said, "I don't think people should drink coffee because it is bad for the heart. In my opinion, drinking coffee is okay, but you shouldn't drink too much.
